

The evidence is irrefutable.
Hy-Tape makes it stick.

EVIDENCE

Hy-Tape does have holding power. Without question, it's your best option for securing an audio/visual transmitter. But Hy-Tape brings more to the table. It's about comfort as well as confidence. While its waterproof feature keeps the tape from shifting or sliding due to heavy perspiration, its latex free/zinc oxide formula is also gentle on the skin during contact and after removal.

Undercover work is dangerous. And, those sticky situations demand the most reliable back-up. Hy-Tape answers the call.

The Original Pink Tape®
HY-TAPE®
